## Dear Valued Customer,

We are incredibly excited that you have joined The COM family! This COM product represents 5+ years of working to provide side by side communication products that are not only the best on the market, but priced lower than the competition. Our goal is to provide our customers with the ability to connect and communicate while riding so they can share experiences in the moment, not only when stopped or when the ride is over.

Installation videos for all our COM products are located on our website at <https://utvcom.com/installation-examples/> (or scan the QR code to the left).

We strongly encourage you to watch the new customer training videos we have on our website at [https://utvcom.com/new\\_customer\\_training/](https://utvcom.com/new_customer_training/) (or scan the QR code to the left). A few minutes now will pay big dividends later and will save you from the frustration of not knowing how to utilize your COM product to its full potential. You will also find advanced customer training videos, troubleshooting help and manual downloads located under the Tech Support drop down on our website. The QR codes are also included in the enclosed glove compartment bag for easy reference while you are out riding.

We've been relentlessly pursuing the creation and betterment of communication products that will improve the way you ride! From big innovations like our stereo intercom with four separate volume controls to small but noticeable improvements like upgraded ear seals and windsocks on our headsets, you can count on The COM to bring you unprecedented value and quality!

We love to see the adventures you take with your COM! Please share your experiences with us by tagging us on social media with #thecom or #utvcom.

If, for some reason, you are unhappy with your purchase, please reach out to us at [info@utvcom.com](mailto:info@utvcom.com) or (208) 779-2891 and we will do our best to address your concerns.

**Happy Riding!**

**UTVCOM**
